What does the term *soul formation* mean?

Every human is created with a soul that will last forever. With this in mind, classical Christian schools know that the soul formation involved in educating the whole student will have eternal benefit. It is not the role of the school to save souls (only God can do that), but teachers, administrators, and other individuals serving at schools are used by God to set the table for the Holy Spirit to work in the life of students and the recalibration of the soul toward the truth, goodness, and beauty of our triune God.
